About Food For Thought:

Food For Thought's **purpose** is to be a gateway between poverty and prosperity.

Food For Thought's **mission** is to serve those in various needs despite their position in order to develop relationships that aid in reconciliation and redemption.

Food For Thought's **vision** is that everyone realize their worth through serving others.

We are an organization of people who care about others and want to help those in need. We believe serving can change both those who are served and those who are serving. And we believe anyone can serve. In fact, we often see generous, selfless behavior from our friends on the street helping each other. It's getting to see that compassion, seeing people opening up and sharing their stories, seeing them realize they still matter in the world, and seeing them start to take steps to change their lives... all this has changed us, too, and we love it.

We serve lunch to 350 unhoused individuals each week, and provide groceries through our stationary and mobile pantries to over 1,000 families each month.
